

GOLDFIELD BASEBALL TEAM WILL BE HERE SUNDAY

**Knights of Columbus of Southern City
Will Also Be the Guests of Local
Lodge---Big Crowd Coming**

Tonopah 23
Goldfield 0

The volunteers say this is the way the score will look. Dispatches from Goldfield, by our wireless, however, say that this is a typographical error and the "23" is in the wrong line.

The Goldfield baseball team will come to Tonopah next Sunday and contest with the Tonopah Volunteers' team for diamond supremacy. On the same date the members of the Knights of Columbus of Goldfield will also visit Tonopah and the guests of the local order, and a large crowd is expected to make the journey from the southern city.

The Volunteers are now at work fixing up the grounds and they will be in good shape by Sunday. The team that will represent the Volunteers will probably be as follows: Willetts, catcher; Prout and Spencer, pitchers; Osgood, first base; Perry, second base; Hatton, third base; Hunter, shortstop; Quilley, Peck and Morris, fielders.

Dr. McDonnell, the newly elected captain and second baseman, will probably not be here for Sunday, as he will leave shortly for a visit to his old home in the east. Ed Malley is expected to umpire the game and if there is any kicking on the decisions there will be plenty of accommodations at the white house on the hill for the kickers. There may be some change in the line-up but it will be practically as printed above.

WOMEN OF WOODCRAFT WILL MEET

Tonopah circle, No. 739, Women of Woodcraft, will hold a meeting tonight in Pythian hall to perfect their organization and familiarize themselves with the work. The lodge has just been instituted and the officers installed and great credit is due Organizer M. E. Hollywood for the excellent showing made.

The lodge has 54 charter members and many applicants. Arrangements have been made with the Knight of Pythias for the use of their hall room and the Women of Woodcraft will assemble twice a month. It promises to take a high standing in the social life of Tonopah and its members embrace some of the most popular ladies to be found in the city.

Mrs. Hollywood will remain in Tonopah long enough to see the new organization running smoothly and will then take up her official duty of instituting new lodges. The ladies of the local lodge have presented the organizer with a handsome souvenir and they express regrets that Mrs. Hollywood will not be with them permanently to aid in the work of the order.

NEW TYPE OF FIRE TRUCK USED IN PENNSYLVANIA

**MOTOR TRUCK WILL DISPLACE
HORSES IN PENNSYLVANIA
FIRE DEPARTMENT.**

NORTH PADDOCK, Pa., June 13.—The fire truck recently placed in commission in this city shows what can be done in adapting a commercial vehicle to the requirements of public service.

It is a truck chassis with a special body and equipment. The step-boards, tool boxes, hose bracket and brass railings are rated as part of the body. The equipment includes porch ladder, roof ladder, thirty-two-foot extension ladder, ax, crowbar, rotary pump, two Babcock extinguishers and two twenty-five gallon brass chemical tanks. It is designed to carry additional tanks of larger capacity as well as standard fire hose. The cost of the special body and equipment complete is \$1180.

The chief or captain has the seat beside the driver and the other fire fighters are ranged on the running boards.

Increased efficiency was the consideration which prompted the North Braddock commissioners to displace horses with this truck.

LARGE CROWD AT THE DANCE LAST NIGHT

Were you at the dance last evening? Yes, and I had a delightful time. This is what you hear on the streets this morning. The dance given by the Fourth of July committee last night at the Miners' Exchange hall proved to be one of the most enjoyable that has been given in Tonopah. The evening was one of the balmy ones so common on the desert at this time of the year and the music as furnished by the Butler orchestra was up to the high standard that the boys have established and greatly enjoyed by all present.

The Butler orchestra was more than liberal in responding to requests, and when the dancers wended their way homeward at a late hour, it was with the remembrance of one of the most delightful evenings spent in Tonopah.

MASON VALLEY SMELTER NOW NEARLY READY

SALT LAKE, June 13.—Visitors from Mason, Nev., assert that practically all the foundation work at the Mason Valley Smelting works is completed, which consisted of effort on the dust chambers, stack, power house, offices, etc. Two cars of structural steel have arrived, and unless the roof beams arrive before the other parts, as so often happens, the work of raising steel soon will be merrily on.

During the past month the company has let the contracts for the mile-long aerial tramway leading from the No. 4 tunnel to the Nevada Copper Belt railroad line, for furnace equipment, electric traveling cranes and several other important items of machinery.

Little work is being done underground at the Mason Valley mine, as the property is in readiness for production on a large scale. Any extensive underground work of necessity be done in ore, entailing a handling of ores without reason. The management has 30,000 tons of ore on the dumps at present ready for transportation to the smelter.

In order to secure in the most economical manner the ore on the No. 3 tunnel dump, a raise is being driven into it from level No. 4.

Have Your Glasses Fitted and Watch the pleased faces leave the Idora at the end of each performance.

WANTED—Girl at Hasbrouck house, Florence avenue. 6-13-21

CALMLY SMOKE AS BIG VESSEL SINKS OFF COAST

**HEROES REFUSE TO CROWD
BOATS, LIGHT CIGARETTES
AND AWAIT DEATH.**

NEW YORK, June 13.—Some details of the sinking of the steamship Taboga off the coast of Panama a fortnight ago have just reached this city. More than a score of the passengers and crew lost their lives.

Eighty were saved. The captain, an Englishman named Campbell, who was the last man to leave the ship and live and the pilot, Matthews, are under arrest in Panama City.

According to statements made, there were but three life preservers on the craft. As the boat was sinking, the second engineer, Perivanchi, and a Cuban manufacturer, Gregoire, though unable to swim, stated that they would not crowd the already heavily taxed lifeboats. When there was not a woman or child left on the ship and not another human being could be carried in the lifeboats, they calmly lighted cigarettes and smoked until the Taboga settled. The body of neither was found.

A herd of steers stampeded from the hold when the vessel struck and smashed a lifeboat which was just being lowered. Nearly every person in the boat was drowned, and many, as they fell, were crushed under the animals. Two passengers, however, found the cattle a godsend and rode ashore upon the backs of bullocks.

GOLDFIELD THINKS WE ARE EASY

**HAS BALL TEAM THAT WOULD
MAKE DETROIT LOOK
LIKE 30 CENTS.**

The Goldfield Tribune has the following to say about the ball team of the southern city:

That Goldfield is possessed of a baseball team fully qualified to uphold the reputation of the camp against all comers was demonstrated yesterday in the practice game played at the Columbia grounds between the Goldfields and a scrub nine played.

Fast fielding, excellent team work and heavy batting characterized the work of the "big team," and it looks as if the Tonopah semi-professionals would have a pretty serious time of it next Sunday afternoon when the Goldfield outfit appears on the diamond.

Rieley, in the pitcher's box, proved his reputation to be well-earned. He had a world of speed, fast-breaking curves and a teasing float or slow ball that would puzzle any batsman. Seitz is in his normal good form, and with Hopkins and Crosby, Manser, Albright and Lamer forming the infield, it will behoove the Tonopah batters to place their hits well outside the baselines. Grayson, Pemberton, Thompson and Anderson are left for the selection of an outfield, and any three of them know the fine points of the game sufficiently to make a long outfield hit sufficient cause for the runners to hold their bases until the ball has been fielded.

Snappy field work, giving promise of double and triple plays galore, were practiced yesterday. Place hitting was also given considerable attention, and in this department the "semi-pros" made good. No one paid much attention to the score yesterday, but it was in the neighborhood of 26 to 2.

The Daily Bonanza reaches the people.

At the Idora there's a seat waiting for you and fifty cents' worth of fun for ten cents.

NEW VAUDEVILLE IS COMING TO IDORA THEATRE

**GILFAIN TRIO WILL APPEAR
FOR LAST TIME AT THIS
EVENING'S SHOWS.**

During the summer months the Idora theater will not run matinees except on Saturdays and Sundays, and the management will devote all energies to giving the biggest and best performances ever witnessed here in the evenings. Vaudeville teams will change twice each week.

Tonight will be the last chance the people of Tonopah will have to see the Gilfain Trio at the Idora theater, as this clever team will close their engagement. The Gilfain Trio has made a great hit in Tonopah. Their singing, dancing and comedy work is all that could be desired, and while they burlesque the acting of the grand opera, "El Trovatore," their singing is a delight to all. The clog dance and the Highland fling by Miss Gilfain is full of life and proves her to be as graceful a dancer as has ever appeared in this city. The bagpipe playing by the trio as they march back and forward on the stage in the kilts brings no end of applause and always calls for an encore. If you fail to see the Gilfains tonight you will miss one of the best teams that has appeared in Tonopah.

For tonight the pictures will be as follows: "The Visiting Nurse," showing the work of the visiting nurses' association in the large cities, is both interesting and instructive and portrays the charity of these noble women who air the suffering. "The Wife's Awakening," a Lubin drama, and "Khmara," will also be thrown on the curtain.

For tomorrow night the team of Reese and Alfrey Sisters will make their first appearance at the Idora and a Bakersfield exchange has the following to say in regard to the trio:

Tonight is the opening night of the best and biggest act ever seen at the Grand theater. If a letter from the manager of Grogg's theater in Bakersfield carries any weight.

"The initial performance of Harvey Reese and the Alfrey Sisters is absolutely the funniest series of stunts ever pulled off on the vaudeville stage," is the way he puts it. Going, some, eh?

Their act has made more hits since it has been out than any other trio booked.

It is a scream from the opening song to the grand finale. These three clever performers are lovers of their art. Each time they go on they are using new "stuff" so that even the rest of the trio do not know what is coming. Extemporaneous acting is the kind that takes an exceedingly clever person to execute.

They are always funny, just naturally born that way. They got the laugh germ somewhere up giggle alley and it sticks worse than glue. And the best part of it, it's contagious. Mutt and Jeff are not in it with Harvey Reese and the Alfrey Sisters.

SMALL FIRE NEAR JIM BUTLER MINE

At 7:30 this morning the fire department responded to a call from the neighborhood of the Jim Butler mine. A high wind was blowing at the time, but the fire gained no headway. The department made its usual excellent run.

NAME OMITTED

In printing the names of the school children who were promoted to the sixth grade from the fifth from Miss McNeil's room the name of Miss Edna Stone was omitted by oversight.

Only reliable advertisers thrive. The public realizes on their risk.

GIRL TRIES TO END LIFE AT MILLERS THIS MORNING

Piano Player at a Mill City Resort Attempts to Take Her Life---Doctor Summoned From Tonopah

Word was telephoned from Millers early this morning that a girl by the name of Vivian Lewis had attempted to commit suicide at that place and requesting that Dr. McLeod come to that place at once. The doctor left at about 4 o'clock in one of the autos of the Consolidated company and a telephone communication from Millers this afternoon states that the girl has a chance for recovery, and is being brought to Tonopah on the afternoon train and will be removed to the Miners' hospital.

Vivian Lewis is well known around Tonopah and has been employed of late by Sid Mortimer as a piano player at his resort at Millers. The cause for the act is unknown.

TEAM COLLIDES WITH AUTO ON MAIN STREET

The express wagon team of R. C. Ryckman furnished a little excitement on Main street today, just above the State Bank building, by getting tied up in the lines and backing the wagon. The horses were standing with the lines in the spokes of one of the front wheels and in trying to start, caused the reins to be drawn tightly, making them rear and start to back up. Before they could be brought into control the team collided with Renie's automobile and one of the horses lost a tooth. The automobile was not damaged, but the tongue of the wagon was broken off.

PARTY RETURNS FROM FISHING TRIP

H. P. Campbell, of the Tonopah foundry, took a party of local Isaac Waltons on a fishing trip to Twin Rivers last Saturday and returned Sunday in the big car belonging to the foundry. Those who enjoyed the trip were: M. P. Sheppard, Al Fishbeck, Charles Ingalls, Albert Wilson, Jack Whitman and Jack Gallagher. The boys report a splendid trip but no fish, as the water was high and muddy, on account of melting snows. The party made about an 80-mile trip and stopped at the Darragh hot springs. They report the roads in Smoky valley in good condition.

SHOOTS HIS RIVAL AND THEN COMMITS SUICIDE

SEHIDAN, Wyo., June 13.—Geo. W. Chapman, a young ranchman connected with Forbes Brothers' Breckton stock farm, went to the Deno ranch, near Big Horn, ten miles south of here, at midnight, last night, and shot his sweetheart, Miss Amelia M. Maier, whose uncle is manager of the ranch. He then went to the home of C. C. Vorce, his rival in the girl's affections, and shot him through the stomach. Later he blew out his own brains. Vorce will probably die, but the girl is only slightly hurt.

CONSPIRACY CHARGE CONSIDERED FLimsy

NEW YORK, June 13.—Thomas Latimer, a banker of Pittsburgh; John Phillips, a mining man of Richmond, England, and Henry R. Derrider of London who were arrested by central office detectives at the request of the Pittsburgh police on the charge of being fugitives from justice, were discharged by Magistrate Harris in the Tombs police court yesterday. The magistrate in discharging the three men said it was remarkable that if the men had entered into a conspiracy to defraud they had not cashed the draft for \$2000 which had been given to Latimer to float the mine.

SALT LAKE IS QUIETLY OPENING A NEW CAMP

Out in Humboldt county, Nevada, about a dozen miles from the Seven Troughs district, a quiet bit of mining development work is being done, news of which seldom reaches the public through the newspapers, says the Salt Lake Tribune. This work is being prosecuted by James P. Olsen of this city, who has so far carried it on without outside financial assistance. However, his hope is so confident and his prospects are so bright that in them he finds ample present compensation for the trouble and the expense incurred.

Mr. Olsen says that the property upon which he is working gives every indication of developing and broadening into a camp even greater than that of Ely. The lowest average so far obtained has been two per cent copper, with on ounce of silver to each unit of copper, while the high assay has reached forty-eight per cent of copper glance, with forty ounces of silver.

Mr. Olsen has been quietly opening up this property for some time past, and he intends to "go it alone" with the work until such time as he thinks capital may be approached without frightening it to death. Just now he is crosscutting from the ledge, which is of immense proportions and thoroughly mineralized.

The formations are in granite, with porphyry dykes and lime containing splendid quartz veins. The discovery is original with Mr. Olsen and as a consequence he has secured the pick of the ground in that locality. There are plenty of wood and good water on the ground and a comfortable little camp has been established.

The property is about fifteen miles south of the Western Pacific tracks, being easily accessible through an almost level valley, rendering the construction of a spur from the railroad a matter of small concern.

SENATOR WARREN GIVES DINNER IN WASHINGTON

WASHINGTON, June 13.—Senator Warren was dinner host at the Washington Country club last evening. Among his guests were former Justice and Mrs. Brown, Justice and Mrs. Devantor, Senator Gallinger, Senator and Mrs. Smoot, Senator and Mrs. Sutherland, the Chief of Staff and Mrs. Leonard Wood, Brigadier General and Mrs. Alleshire, Representative Mondell, Misses Mary Morgan and Cushing.

JUMPS FROM BRIDGE; IS DEAD WHEN FOUND

PHILADELPHIA, June 13.—Climbing over the railing of the Walnut lane bridge which spans Wissahickon creek in Germantown, Henry Shermer, assistant treasurer of the Germantown Savings Fund society, jumped 175 feet into the shallow stream. He was dead when found. Mr. Shermer had been in ill health for some time. He was about 54 years old.
